How Girls Code

Who: 20 girls in grades 3-5
When: Mondays, 3/5-4/30
Time: 3:30-5pm

Why: The goal of the program is to inspire students to become creators - not just consumers - of the technology they use. Guest speakers will provide real-life examples of the varied careers within the industry and hopefully inspire girls to consider pursuing a career in the fields of computer science, engineering or mathematics.

Unheard Perspectives

Saturday, February 10

LWES students were tasked with investigating the contributions of African-American innovators in American History. They showcased their research through presentation of a PowerPoint, display, or performance at the Countywide Showcase at Wilde Lake Middle School. At the expo, judges evaluated students' exhibits and scored students based on a set of criteria using a rubric. Congratulations to those who represented LWES!
