Family-School Compact & Family Involvement Plan

The **Title I Family-School Compact & Plan** is an agreement between a family, a student, and the student's teachers to support the student's academic achievement. It explains how families, students, and teachers work as a team to make sure students achieve grade level goals. It is jointly developed and distributed to each Title I family.

Mathematics: The HCPSS Mathematics Curriculum aligns with the Maryland College and Career Ready Standards. It demands that students develop a depth of understanding and ability to apply math to real-life situations. PreK-5 standards lay a solid foundation in whole numbers, addition, subtraction, multiplication, division, fractions, and decimals.

English/Language Arts: The HCPSS Language Arts Curriculum aligns with the Maryland College and Career Ready Standards. The county curriculum provides every student in grades PreK-5 with opportunities to become successful communicators, to read comprehensively, write effectively, speak meaningfully, and listen critically.

In order to ensure our children's success, we will work together on the following responsibilities:
